# UML DIAGRAMS

Eng. Renad Algethami

DEPLOYMENT DIAGRAM

The deployment diagram that I prepared explains to all engineers in all tracks the elements of the robot in detail as follows:

Browser on users computer   Internet   Web server   Database   Tablet

Servo motor arm   Arduino   Raspberry Pi   webcam

USE CASE DIAGRAM

I drew a Use Case Diagram to show all my team members from all tracks the scenario that will happen after completing the robot. Therefore, I ask all members to read the following graphic well to implement the required scenario.

User

Robot

Admin

- Run Robot
- Ask a question
- Answer and interaction
- Hand position
- Add content on social media
- Survey request
- Service evaluation
- Back end
- Off Robot
